

Eurener awarded EcoVadis Platinum Medal for the third consecutive year, strengthening its leadership in sustainability

The company ranks among the top 1% worldwide and improves its performance in key sustainability areas.

Eurener, a leading Spanish manufacturer of photovoltaic modules since 1997, has once again been awarded the **EcoVadis Platinum Medal**, the highest distinction in corporate sustainability. This recognition places the company **in the 99th percentile**, meaning it is among the **top 1% of best-rated companies globally**.

This milestone is even more significant as it marks the **third consecutive year** that Eurener has received this rating, consolidating a strong and consistent ESG (Environmental, Social & Governance) trajectory. In this edition, the company has also **improved its overall performance**, further strengthening its position as a benchmark in sustainability within the photovoltaic industry.

Environmental excellence: the core of Eurener's model

The report particularly highlights Eurener's environmental performance, reflecting a comprehensive strategy based on:

- **Robust environmental policies**
- **Clearly defined quantitative targets**
- **Implementation of renewable energy** in its operations
- **Internal training programs** focused on energy efficiency and responsible resource management
- **ISO 14001 certification**, ensuring an environmental management system aligned with international standards

Business ethics and governance: benchmark standards

In terms of ethics, Eurener stands out as a company strongly committed to transparency and best corporate practices, fostering a corporate environment built on trust, integrity, and accountability.

Social commitment and continuous improvement

Regarding labor **practices and human rights**, Eurener is a pioneer in initiatives such as:

- Equal opportunities and prevention of discrimination
- Training and professional development
- Occupational health and safety
- Work-life balance and employee well-being

A recognition aligned with the European energy transition

In a context where sustainability has become a decisive factor for investors, partners, and clients, this recognition positions Eurener as a **reliable and responsible supplier aligned with the highest international standards**.

Real added value for your projects

In a global market where sustainability is no longer optional, Eurener provides a clear competitive advantage:

- Facilitates compliance with ESG requirements in tenders
- Strengthens project traceability and value
- Reduces reputational and regulatory risks
- Improves access to sustainable financing

More than solar modules: a sustainable partner

This recognition reinforces our mission: to deliver **high-quality European photovoltaic solutions** aligned with the energy transition and the most demanding market standards.
